HALADINAR to partner Steak me and Savoury restaurants to promote the use of Haladinar (HDN) digital tokens as a form of cashless payment

Singapore: HLD Technology Pte Ltd, which is headquartered in Singapore and which manages the e-commerce platform HALADINAR, has forged a strategic collaborative partnership with SteakMe and Savoury restaurants, located along Jalan Kayu in Singapore. Under this collaborative partnership, HDN digital tokens will be accepted for use as a form of cashless payment in both Steak me and Savoury restaurants.

Beginning 1 January 2019, both Steak me and Savoury restaurants will issue HDN tokens to their customers for any purchase made at either restaurants, during the period 1 to 14 January 2019. During this promotional period, customers will receive one HDN digital token for every SGD1.00 spent at the two restaurants. From 15 January 2019 onwards, the HDN digital tokens can subsequently be used to pay a percentage of the total bill incurred by a customer at either Steak Me or Savoury restaurants.

This initiative is part of HLD Technology's initial efforts to promote a cashless payment system in Singapore where buyers and sellers of goods and services transact directly with one another using a trusted digital currency without any banking or financial intermediaries.

HALADINAR is a both a digital currency and a global platform and online decentralized marketplace designed to serve the Muslim and non-Muslim communities throughout the world. Goods and services in the HALADINAR Marketplace are Halal. Through blockchain technology, manufacturers, merchants, suppliers, traders, buyers, sellers and consumers are brought together on HALADINAR, a unifying and inclusive marketplace, where they are able to use HALADINAR as a digital currency for trade.

Steak me and Savoury are semi-casual dining restaurants serving Western food run by renowned Singaporean Chef Amri Azim.
