HALADINAR reduces the total supply of HDN tokens on sale.

Singapore: In response to community feedback and several discussions with potential eCommerce business partners, HLD Technology Pte Ltd will reduce the total number of HDN tokens for ICO sale to 250 million instead of the 600 million tokens initially planned, with immediate effect. The new token sale composition will now effectively be as follows:

| Total Amount | USD 3 million | USD 20 million |

Private Sale buyers who are early adopters will receive an airdrop of 80% bonus HDN tokens into their registered account based on the total quantity of HDN tokens purchased at USD 0.06 per token.
